# Welcome Message

Dear Colleagues,

On behalf of the Egyptian Scientific Society of Bronchology and the Organizing committee we are deeply honored to welcome you as a distinguished guest to share and attend the 11<sup>th</sup> Regional Annual Assembly Meeting of the Egyptian Scientific Society of Bronchology (ESSB), in collaboration with the Egyptian Fellows of the American College of Chest Physicians (ACCP) & Chest Department, Ain Shams University at Steigenberger Nile Palace Hotel, Luxor, Egypt in the period between 13 -17 December, 2011.

The scientific committee has prepared a comprehensive scientific program with all updates at the field of pulmonary medicine and related fields. International and national experts are invited to attend and present at the meeting which is an opportunity for attendees to share and exchange experience. The scientific program is accredited 18 CME credits from the European Accreditation Council for Continuous Medical Education (EAACME). On this year's agenda you will find the most interesting and hot topics in our discipline, delivered to you either at oral presentations, satellite symposia or interactive sessions.

Besides the scientific program, we also hope our guests enjoy the history, leisure, dining, natural beauty and recreation that Luxor has.

Wishing you a fruitful meeting and pleasant stay.

**Deputy President of the Society  
Chairman of the Organizing Committee**

# Biography of Late Professor Tarek Mahfouz (1954-2010)

## Professor of Pulmonary Medicine Assiut University

Prof. Mahfouz graduated from Assiut Medical School in 1977 which is one of the highly appreciated and recognized faculties in Egypt; he served his internship and subspecialty training in Pulmonary medicine from 1978 to 1986 and pursued his doctorate degree in United Kingdom on interventional laser bronchoscopy.

While in Egypt he escalated in his academic career to be the Head of the Chest Department Assiut University from 2006 to 2009.

Professor Mahfouz was a member and fellow of many scientific and international organizations including the European Respiratory Society (ERS), the World Association for Bronchology and the American College of Chest Physicians (ACCP); however he was one of the major pillars in founding the Egyptian Scientific Society of Bronchology in 2001. His activities and role in this Society were great organized and was the head of the Scientific organizing committees of many Regional conferences in Assiut, Luxor, Istanbul and Dubai. He worked very hard in the CME programs in different avenues of the Respiratory field from Upper to Lower Egypt and organized as well a lot of workshops including Hands on experience in Fiberoptic and interventional bronchoscopy as well as thoracoscopy, sleep functions, radiology, intensive care and PFTs.

Professor Mahfouz was behind the establishment of the bronchoscopy and interventional Unit at Assiut Chest Department by fund raising; he was able to upgrade the service with the autofluorescence for early diagnosis of lung cancer, Argon plasma, cryo, electro, endobronchial US and stenting. He established and supervised the PFT unit, the Sleep lab, and the ICU. He was starting to plan for the Pulmonary hypertension unit as a diagnostic and therapeutic centre in Upper Egypt. He had as well being involved in the establishment and supervision of many Respiratory Units in Upper Egypt such as El-Minia, Qena and Sohag Universities. He supervised a large number of Masters, MD.thesis and published many papers in different regional and international journals.

In addition to his university appointments and role in international societies, Professor Mahfouz had a busy private medical practice; he was extremely recognized and appreciated by his colleagues and patients and was an authority in the field of Pulmonary medicine.

More recently he had successfully focused his efforts on creating avenues for CMEs and had been instrumental in organizing numerous national and international postgraduate courses and hands-on training workshops for Chest physicians in Egypt and Regional.

Contributions of late Professor Tarek Mahfouz in the field of Pulmonary Medicine both nationally and regionally were remarkable, may God bless him and his family, and may his soul rests in peace.
